

Bee City USA Annual Report for 2018 Pollinator Conservation & Education

JEFFERSON, GEORGIA

EDUCATION & OUTREACH

Honeybee on aster. Photo: Phyllis Stiles/Xerces Society

Jefferson hosted a honey company and demonstration hives at our annual tree festival, as well as a presentation on capturing swarms.

POLLINATOR HEALTH & HABITAT

Jefferson is a small town of 11,136 people. We are working with a landscaper to employ integrated pest management.

POLICIES & PRACTICES

Jefferson hosts hives on top of government buildings and sells honey through the museum. We are discussing honey removal and habits of our city bees. We maintain a garden adjacent to the hives. We follow our approved plant species list for city plantings.

Recommended Locally Native Plant Species List—LUMC Municode approved planting list

Regional Native Plant Supplier List—Through handouts and verbal info

Pollinator Friendly Integrated Pest Management Plan—To be developed
