

Bee Campus USA - Colorado State University

Report on 2020

Pollinator Habitat Creation & Enhancement

Events were canceled due to COVID.

Education & Outreach

The President of the CSU Apiary Club is a member of our committee and did the following pollinator-related events: • Held a meeting about flowers on March 3, 2020 • Gave honey to the CSU brewery program • Split hives with a small group in April 2020 • Provided regular hive maintenance every other week all summer 2020 • Weathered hives December 1, 2020 Most events were canceled due to COVID. However, the Native Bee Watch volunteer training from CSU Extension was held virtually in 2020, which expanded the ability for people to participate across the state and then volunteer in the citizen science opportunity. Native Bee Watch is led by Lisa Mason, one of the members of the Pollinator Friendly Campus Committee. Lisa Mason also gave a presentation at the Colorado Pollinator Summit on 11/05/2020.
