

Bee City USA - Galena

Report on 2020

Pollinator Habitat Creation & Enhancement

Installed two beehives on a farm in Johnstown, OH, to help with pollination of hay and clover fields. Found a small patch of paw paw plants in woodlands area of committee member. Relocated paw paw plants from another location to help with the pollination of the plants. We hosted these enhancements.

Education & Outreach

Native pollinator planting in Galena Village Square and native plant giveaway with educational handouts; celebration of Galena's Bee City affiliate status and resolution with mayor and council members present; booth at local farmer's market with educational handouts; and field trip to Claridon prairie in Marion County, OH. We hosted all events except the Claridon prairie field trip.

Galena Village Square Native Planting

Bee City Galena Booth at Farmers Market

Policies & Practices

Before pest management is executed, discussion with Committee is first step in determining course of action.
