

# Bee City USA - Arlington

Report on 2020

---

## Pollinator Habitat Creation & Enhancement

Due to Covid-19, All projects, events and presentations were cancelled.

---

## Education & Outreach

Due to Covid-19, all projects, events and presentations were cancelled for most of the year. However we were able to publish several articles along with social media posts to start our education program. This included stories on National Pollinator Week, National Moth Week and National Honey Bee Day.

---

## Policies & Practices

The City of Arlington's Parks and Recreation department is responsible for site maintenance on city property. They have site specific plans for city buildings and plans to maintain linear park areas. These site plans are developed using integrated pest management strategies. These policies are being reviewed by the Bee city committee. The City also promotes natural areas and pollinator habitat on private property through the City's Design Criteria Manual and the Unified Development Code.
