

Bee Campus USA - Coconino Community College

Report on 2024

Pollinator Habitat Creation & Enhancement

Please describe pollinator habitat creation or enhancement projects in your community in 2024, and whether your committee hosted them or not.

During the time of transition at the College, we were unable to host habitat creation or enhancement projects. However, significant efforts were made to maintain the pollinator habitat by college personale.

How many people (staff, volunteers, students, partners, etc.) helped with those projects?

76

Please check all that describe the habitats your affiliate helped to create or enhance last year with pollinator benefit in mind.

- Flower garden
- Natural area with tree snags and stumps, and bare areas for ground nesting species
- School garden

Education & Outreach

Please describe pollinator conservation events or outreach activities in your community in 2024, indicating whether your committee hosted them or not.

Biology-major and non-biology major students used pollinator garden for experiments and biodiversity measurements. They learned about how benefits of pollinators, the threats they face, and the role of the institutions and individuals in conservation and preservation efforts.

How many pollinator-related events or outreach activities did you host or help with in 2024 (in total)?

4

How many people attended those events (in total)?

100

Curriculum, Continuing Education, & Service Learning

Please describe the curriculum your campus engaged in 2024, indicating whether it was part of a for-credit course or continuing education.

Biology-major and non-biology major students used pollinator garden for experiments and biodiversity measurements. They learned about how benefits of pollinators, the threats they face, and the role of the institutions and individuals in conservation and preservation efforts.

How many of your for-credit courses included pollinator-related information in 2024?

4

How many students attended those for-credit courses?

100

Policies & Practices

Please describe actions taken to make pest management more pollinator-friendly.

Our college does not use pesticides.
