

Bee City USA - Pine Lake

Report on 2024

Pollinator Habitat Creation & Enhancement

Please describe pollinator habitat creation or enhancement projects in your community in 2024, and whether your committee hosted them or not.

Invasive removal in Pine Lake wetlands, maintenance of the public medicinal garden and Monarch garden, and a native plant sale.

How many habitat projects did you help to create or enhance in 2024?

3

How many people (staff, volunteers, students, partners, etc.) helped with those projects?

5

How many projects benefit monarchs, milkweed, or nectar plantings?

2

How many total square feet of habitat were created or enhanced?

100

Please check all that describe the habitats your affiliate helped to create or enhance in 2024 with pollinator benefit in mind.

- Flower garden
- Natural area with tree snags and stumps, and bare areas for ground nesting species
- Native milkweed planting for monarchs and bees (where appropriate)
- Invasive/exotic plant species removal for habitat improvement

Education & Outreach

Please describe pollinator conservation events or outreach activities in your community in 2024, indicating whether your committee hosted them or not.

Annual Pollinator Census, Pollination Celebration, and LakeFest.

How many pollinator-related events or outreach activities did you host or help with in 2024 (in total)?

6

How many people attended those events (in total)?

300

How many Bee City USA logo street signs have you installed to date (in total)?

1

Policies & Practices

Please describe actions taken to make pest management more pollinator-friendly.

Our city does not use pesticides or herbicides on public property.

Are efforts underway in your community to further reduce pesticide use in residential or business areas? This may include neighborhood-led efforts, outreach to landscapers, etc. If so, please describe.

Not at this time.

In your city or campus, are any policy initiatives underway to further protect pollinators, people or waterways from pesticides?

Not at this time.

Did your committee participate in any continuing education on ecologically-based Integrated Pest Management planning?

Xerces Society flyers distributed at the Pollination Celebration, and Pollinator Census

Please check actions you have taken to make pest management practices more pollinator-friendly.

- Dropped pesticide use altogether on city or campus grounds
